

# Peer Review Worksheet for Portfolio Draft

BCOM3300

Mahad Memon

Steps:

1. Review your partner's draft POP
2. Respond to the following questions:

**<<WRITE A LOT!!!!!!>>**

A. Rate the overall design/ease of navigation/readability of the POP

1 (very clunky/cold design)      5 (somewhat engaging)      10 (very engaging/friendly)

**10**

B. What are 2 things your partner can do to make their portfolio MORE readable?  
(Bigger text? Smaller paragraphs? More photos?, etc)

Thing 1:

On the "About Me" page, break the text into smaller paragraphs or use subheadings for each topic, (for example Fitness, Cooking, Travel). This will make it easier for readers to scan the page and quickly find information that interests them.

Thing 2:

Add consistent spacing and alignment across all the sections, especially on the "Resume" and "Contact" pages. Center-aligning the contact form and margins will create a more clean appearance.

C. Does the PROJECTS page feature all of the required items listed in the assignment description?

YES

NO

**YES**

D. Click all the links in the POP. Does each link take you to the correct place?

YES

NO

**YES**

E. What is something you did on your POP that you recommend your partner do on theirs?

Incorporating nice transitions, like I did, when pressing each button is a simple but effective strategy to enhance the look of the portfolio.

F. What are the 2 most important things your partner could do to improve their POP?

Thing 1:

Add more visual and eye-popping elements to make the portfolio more engaging. For example, include a header on the homepage that describes Ali's professional identity ("Aspiring IT Professional | Passionate About Innovation").

Thing 2:

Enhance the "Resume" section with a more structured layout. Use bold headings or bullet points to separate "Education," "Skills," and "Work Experience" sections. This will make it easier for viewers to locate specific details.
